## FAST TIME IS MADE BY EDMONTON MEAT TRAIN

Canadian Pacific Carries 10-car Shipments of Chilled Meat from Griffin Packing Plant, Confront to Dawson, from Edmonton to Vancouver in Two Days.

The transportation companies appear to be doing everything possible to assist in the development of the chilled meat trade from Edmonton, by providing fast freight facilities for handling this business. Last night, Y. Y. Y. and Co. report that their last special train from here which left Edmonton on the morning of July 13th, en route for Dawson City, arrived in Vancouver in fine condition on the morning of the 16th, and was loaded on to the steamer the same day.

This special grain train consisted of ten cars from their Edmonton packing plant, and was augmented at Calgary by three cars from their Winnipeg plant and one car picked up at Calgary.

As an indication of the dimensions to which the meat industry at Edmonton may eventually attain, it might be mentioned that the Griffin plant alone are now shipping every week about a similar quantity of their products. This output could be very greatly increased if the farmers would increase their output of hogs and cattle.

As the country surrounding Edmonton is the finest mixed farming district on the continent, and the market is practically unlimited and high prices likely to prevail for at least some years to come, there should be very rapid expansion in the meat industry at Edmonton.

**CHICAGO LIVE STOCK.**  
Chicago, Ill., July 22.—Hog trade was irregularly higher. Advancers ranged from 10 to 25 cents packing grades getting the most of it. Big hogs reported at \$2.30 to \$2.50 per bushel. There was demand at \$2.50 to \$2.60 today, and a lot of \$2.60 to \$2.65 bushels was done on light butchers and choice light. Cattle trade was of the fairy character. There was little demand and still less was wanted. Bulk of the fresh supply was Texas steers, direct to packers. The close was 22 to 23 cents lower for the week. Live stock in the market was steady. Lambs were in demand at \$2.50 to \$2.60, but little fresh was on sale. The close was 1.00 to 1.20 per cent higher last week. Sheep were in demand at \$2.50 to \$2.60, but little fresh was on sale. The close was 1.00 to 1.20 per cent higher last week.

**THE RETAIL MARKET.**  
There are few changes to record in the local market. Eggs remain at 25 cents per dozen. New potatoes are becoming plentiful and have fallen to 5c per lb. Cucumbers range now from 10c to 15c each. Red currants have disappeared from the market. Raspberries at 15 cents per box are becoming scarce, though a limited supply may yet come in from local growers.

**Dairy Produce.**  
Eggs, 25 cents per dozen; butter (dairy), 22 to 23 cents per lb.; butter (creamery), 25 cents per lb.  
**Vegetables.**  
Old potatoes, 10 cents per bushel; new potatoes, 25 cents for 5 lbs.; cabbage, 15 cents for 3 lbs.; cauliflower, 15 cents to 20 cents each; lettuce, 5c per bunch; radishes, 5c per bunch; green onions, 5c per bunch; bunches of carrots, 5c per bunch; bunches of celery, 5c per bunch; bunches of beets, 5c per bunch; cauliflower, 15c per lb.

**Fruit.**  
Plums, 75 cents per 5 lb. box; apricots, 40c per 5 lb. box; peaches, 20c per pound; apples, 25c for 2 lbs.; tomatoes (Crest), 25c per lb.; cherries (dark), 50c per lb.; raspberries, 15c per box; oranges, 10c to 15c per lb.; lemons, 25c per lb.; pears, 15c per lb.; grapes (fruit), 10c to 15c each; black currants, 15c to 20c per box; lemons (dark), 15c per box; pears, 15c per lb.; cherries, 25c per lb.; watermelon, \$1.00 each.

**Meat Market.**  
Beef, 15c to 16c per lb; prime cuts, 20c per lb; chuck, 15c to 20c per lb; veal, 10c to 15c per lb; prime cuts, 25c per lb; pork, 15c to 20c per lb; ham, 25c per lb; bacon, 25c per lb; spring chickens, 25c per lb; fowl, 15c per lb; white chicken, 15c each; halibut, 15c per lb; salmon, 25c per lb.

**BRADSTREET'S REPORT.**  
New York, N.Y., July 22.—Bradstreet tomorrow will say of Canadian trade: Wholesale trade in Canada has been doing well, and is expected to continue to do so, partly due to seasonal developments, but the most complete factor in the strike of railway employees on a leading line and adverse crop reports from the west. The strike has hampered wholesale trade at Montreal, and also seriously affected shipping facilities at that port. Inducement, the shipment of work will be very keenly felt by retail dealers. Flour as well as grain and rolls are higher. The hide market is unsettled, green hides bring down 1/2 cent per pound with lower prices looked for next week. Money is firm and collections are slow. Toronto two complaints that the strike of the Grand Trunk railway trainmen is injuring wholesale trade as dealers are having considerable difficulty in keeping goods forwarded. Trade in seasonal line is satisfactory and prospects for future business appear encouraging, but adverse crop reports from the west have superimposed a degree of caution among buyers. At Winnipeg trade is still excellent, but buyers engaged in business in districts from which crop damage is reported are exercising more than ordinary caution in purchasing for future delivery. High clearings at thirteen cities for the week ending with Thursday last aggregate \$125,760,000, a decrease of 27 per cent from last week, but an increase of 10 per cent over last year. Business failures for the week ending with Thursday, number 34, which compares with 24 last week and 24 in the corresponding week of 1909.

**Give Him a Punch On The Front Porch**  
When the casual visitor arrives, a glass of "Montserrat" Punch is very refreshing.  
If you want to serve something really enticing—that will bring smiles of contentment and words of appreciation from your guest—serve one of the many delightful, cooling drinks given in the "Montserrat" Recipe Book.  
"Montserrat" Lime Fruit Juice is more economical than lemonade—relieves the thirst—tickles the palate—and is all ready to use.  
Regular "Montserrat" Punch is simply made: cracked ice, sugar, water or soda and "Montserrat", but more elaborate recipes may be used when desired. "Montserrat" combines with everything drinkable except coffee.

**CAMPBELLTON IS SUFFERING.**  
People Compelled to Sleep in Wet Clothing on Water Soaked Ground.  
Campbellton, N.B., July 22.—A despatch says that the thousands and heavy rain storms have made the condition of the homeless people of Campbellton pitiful. Tonight many had to sleep in wet clothing practically on water soaked ground. This was laid enough on the men, but more so for the women and children. Two people are reported to have become mentally unbalanced, one over the auto accident in which, Charles W. Anley was killed. There is some diphtheria too. A general appeal for cash and is issued to relieve the present suffering and help towards building for the future.

## WESTERN BUILDING IS INCREASED GREATLY

Statistics for May of This Year Compiled by Construction Show Winnipeg, Lethbridge, and Montreal Are Up Behind—Increase Is 50 Per Cent. for Month

From a consideration of the building statistics of twenty-five representative Canadian cities, it is very evident that the Dominion is in no way likely to lose its reputation for structural development. The figures for the month of May, 1911, have attained a situation that shows that for the same period last year, thus establishing a new record for this country. Although Canadians have ever been regarded as to the development of this country, yet the figures presented serve as a substantiation thereof, and are a source of the greatest satisfaction in progress, it is known that none of these representative towns have been experiencing what is generally understood by the word "boom," but are passing through a period of steady but phenomenal material development.

Fifty per cent is the remarkable increase of May, 1911, over May, 1910, in value of buildings for which permits were issued in the twenty-five cities listed. This represents an increase of \$3,772,172, a very substantial amount considering that for May last year, permits were issued to the value of \$7,545,192; and these statistics have been compiled only for the cities given, so as to represent fairly the condition which prevails throughout the different provinces. Of course, there are scores of smaller towns and cities, which would show increases of like or even greater proportions, so that an adequate idea of the aggregate building spirit throughout Canada can in no wise be obtained from the list. However, the percentage gain is representative, and accurately expresses the strides which are being made.

As regards the cities of Ontario where figures are given, a glance shows that six of them have had very material increases. Toronto leads in Ontario, but has had to take second place in the honors of the Dominion, being outdistanced by Winnipeg. Toronto alone practically the same total for May last year, which is highly commendable, when the fact is considered that builders hesitate to apply for permits on account of the comparative scarcity of brick. This latter factor aside in some of the other cities in Ontario and also in many cities in the rest of the provinces, notable figures are given. For instance, Port Arthur shows exceptionally creditable increases of 109 per cent and 119 per cent, as also do Hamilton and Peterborough, with the heavy gains of 140 and 156 per cent respectively. Ottawa is ahead by three and Stratford by 249 per cent, while St. Thomas also

comes out to the good with a slight increase. Bradford, Lethbridge, and Windsor show small decreases, owing to the fact that several important structures came under the figure of last May. Montreal, as usual, is prominent with a total of \$1,106,200, thereby taking third place; an increase of 24 per cent over one year is not commendable for a city where building last May amounted to \$1,107,700. St. John, N.B., and Sydney, N.S., exhibit a lead of 27 per cent, and 18 per cent, respectively over previous figures, which is most noteworthy, to say the least. Halifax, however, has not yet reported hereof, the loss there noted, being 64 per cent.

Considering the more Western provinces, the extensive operations being carried on in Manitoba, Saskatchewan, Alberta, and British Columbia, present a fair idea of the progress there, and give one a general conception of the tremendous expansion which the country is undergoing. Winnipeg leads all other Canadian cities, having

Permits	Permits
May, 1911	May, 1910
Brandon .....	\$224,500      \$88,225

Vancouver .....	941,570      277,140
Windsor .....	21,500      34,410
Winnipeg .....	2,091,020      1,287,650

Toronto, its closest competitor, a good lay behind. It exhibits a building lag valued at \$2,991,450, a ratio of 62 per cent. Brandon also supports Winnipeg in upholding the honors of the province of Manitoba, as permits for buildings were issued aggregating \$224,500, as against \$88,225, an improvement of 154 per cent. Saskatchewan may well be proud of the astounding figures sent in by Moose Lake, Saskatoon, and Regina, gains of 765, 792 and 139 per cent, being noted in the order named. Saskatoon with a list of structures for May worth \$493,150, stands out conspicuously, and is attracting the attention of all Canadians by its remarkable unwatered progress. Calgary presents a most flourishing condition, with a total of \$522,665, a very substantial increase over May, 1910, of 23 per cent, while Lethbridge sustains its reputation with a gain of 58 per cent. Edmonton, though making a showing of \$221,025, exhibits a slight percentage decrease owing to the fact that the am-

ount fluctuates from month to month, but on the whole, building in this city is brisk. Vancouver, to establish its title as one of the largest of the Canadian cities, comes to the fore with a list worth \$541,570, snatching last May's record by 21 per cent. Victoria also presents a heavy gain of 14 per cent and a total of \$127,230.

On the subject of the tariff he said: "I love and admire. That is where I get my inspiration, but while England has a lot to teach us, it is not the fact that the goal which should be before us, it is not possible to reach that goal at the present time, so long as we have side by side with the country of the United States, we shall have to be cautious in tariff matters."

## HE IS IN FAVOR OF RECIPROCITY

Premier Laurier Says Canada Will Have It When Square Deal Is Assured.

Niagara, Sask., July 22.—The demands made upon Sir Wilfrid Laurier by his Western trip have been so great that the Premier has greatly appreciated the rest he has been able to spend for the last two days at Niagara. The rest has done the Premier good. Today he said he had a satisfactory view of the situation, which was only obtainable from the rest. Sir Wilfrid Laurier, however, is busy again, and this afternoon he addressed a great meeting of the Niagara, Sask. He likened the progress of the west to a miracle. "When we were young," he said, "we read of the way palaces were carried from one country to another, and of how towns were built up in a night. We all supposed that the age of fairies had gone, but after seeing these young Western towns, I am of the opinion that the age of fairies is still with us. The fairies have continued their magic and in this modern world they are known as pluck, energy and enterprise."

Pledges Hudson Bay Road. Sir Wilfrid gave a pledge that the Hudson Bay railway would be built with as little delay as possible. He was confident that the matter was right in the hands of Mr. Graham, Minister of Railways, who, he continued, was the right man to see to it that the railway was built. He told the meeting that the first thing the Minister of Railways did before he left Ottawa, was to sign a contract for the building of a bridge over the Saskatchewan river. Sir Wilfrid made an important statement upon the elevator question. "I myself am now a tiller of soil," he said, "but it is my duty to look to the interests of the tillers of soil. That is the reason I am in this position I occupy today."

Sir Wilfrid considered that the pro-

sent situation in regard to terminal elevators demands an investigation and reform. It was not sufficient to punish the offenders who mixed grain but what ought to be done was to make it impossible for these practices to continue. He proposed legislation to care the evils from which the farmers of the West are suffering.

On the subject of the tariff he said: "I love and admire. That is where I get my inspiration, but while England has a lot to teach us, it is not the fact that the goal which should be before us, it is not possible to reach that goal at the present time, so long as we have side by side with the country of the United States, we shall have to be cautious in tariff matters."

## Favors Reciprocity

"I know you are in favor of reciprocity with the United States, and I wish to tell you that I also am a fervent of it as soon as we can get a square deal." Sir Wilfrid spoke of frequent pilgrimages to Washington and remarked that although Canada was determined to present the cold shoulder given her and she would go to Washington no more, at no time have the relations between the two countries been more friendly or more cordial than they were at present time. "It is only natural," the Premier said, "that a man will respect the man who respects himself, and I feel very much obliged to Washington for the respect he has shown me. I have had at any other time. There have been no more pilgrimages to Washington, but I am proud to say that the McGillivray trip, which I likened the progress of the west to a miracle."

"When we were young," he said, "we read of the way palaces were carried from one country to another, and of how towns were built up in a night. We all supposed that the age of fairies had gone, but after seeing these young Western towns, I am of the opinion that the age of fairies is still with us. The fairies have continued their magic and in this modern world they are known as pluck, energy and enterprise."

## WANTED IN LETHBRIDGE

Arrested in Saskatoon for Bringing Women to Canada for Immoral Purposes

Saskatoon, July 22.—Neil Brodie was arrested last night on a charge of bringing women from the United States to Canada for immoral purposes. He was arrested before Magistrate Brogan and remanded until Saturday. It appears two young women came with Brodie from the States to Lethbridge, but the accused says they followed him there. An officer is expected from Lethbridge to take Brodie back.

## LIFE A NIGHTMARE

Helpless and Broken Down, Dr. Williams' Pink Pills Came to the Rescue

There are many who think anaemia is a trouble confined to growing girls and women, but this is not the case. Thousands of men are anemic, and attribute their growing weakness to mental or physical overwork, or worry, and who do not appear to realize that they are swiftly passing into that condition known as general debility, and that this is due, in due entirety to the fact that their blood is watery and impure. If the trouble is not taken in time, they pass from one stage to another until the breakdown is complete, and often until a cure is beyond hope. To men in all walks of life there is no medicine so valuable as Dr. Williams' Pink Pills. If you feel jaded, weak or worn out these Pills will make that energy into every portion of the body. Making good blood is the mission of Dr. Williams' Pink Pills and good blood is the one secret of good health and vigorous life. An excellent case in point is that of Mr. R. W. Ellis, of Lethbridge, Sask., who says: "Just four years ago I was in England making preparations to fulfil the long cherished ambition of coming to Canada. My health at that time was normal, though I was never very strong. Three weeks before the time of my departure I was overcome with a feeling of general weakness and faintness which rendered me so inert and listless that my days were shrouded in gloom. Consultation with a doctor brought me no consolation. Debility was my trouble and I was on the point of a breakdown. Canada. In your condition, 'death,' said the doctor. 'You must try to cure my listless brain.' The next day was out of the question, a fortnight's holiday I had and then back to work. In three months I changed from a nervous wreck to a healthy man. With doctors failed they succeeded, and I honestly believe they saved my life."

You can procure the best health giving medicine from any dealer or by mail at 50 cents a box. Write for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont. At the police court this morning two drunks were sentenced the usual fine of four dollars and costs.

### Water Pan Is Correctly Placed In The Sunshine

Few people realize the importance of the water-pan. Yet, without the moisture evaporated from the water in the pan, the warm air passing through the registers is harsh and dry. It is hard on your lungs and on your furnishings.

Now, the water-pan must be correctly placed. Be it of any real use. If it is placed near the bottom of the furnace (see lower illustration) the moisture has a long route (two arrows) to travel before it reaches the pipes leading to the rooms. It must pass alongside the fire-pan and radiators, and the terrific heat from these dries out nearly every particle of moisture ascending from the pan. Very little reaches the pipes or passes through registers.

Now, notice the location of the Sunshine water-pan. It is placed over the fuel door. The moisture travels the short, direct route (one arrow) to the rooms. You can always have moisture-laden, healthful air passing through your registers, provided you keep the Sunshine water-pan filled with water.

If you value your health you'll have our local dealer install the Sunshine, with a guarantee to heat your house to your entire satisfaction.

## McClary's Sunshine Furnace

London, Toronto, Montreal, Winnipeg, Vancouver, St. John, N.B., Hamilton, Calgary.

### For Sale by A. LEE & CO.

### GUARANTEE THE MONEY.

The city commissioners have received a guarantee through the London bank of \$25,000, promised by James Chatterton, Montreal, the owner of the Sunnyside, towards the west end bridge over the Great eastern railway. The lenders for the bridge are now under consideration for the commission, and the contract for the work will be awarded in the course of a few days.
